PROFESSIONAL SUMMARY

Goal-oriented software developer with 6+ years of experience in building web applications using ReactJS, Redux, JavaScript, HTML, and CSS. Proficient in developing scalable, interactive, and responsive web applications, with expertise in consuming REST APIs and understanding React functional components and hooks. Strong knowledge of Agile Scrum methodologies and AWS Cloud services.

EXPERIENCE

Senior Full Stack Developer

Beleb Software Solutions (Buffpay)

March 2023 – May 2024

- **React Development:** Daily tasks include implementing new UI components using ReactJS based on design specifications, updating existing components for improved performance, and ensuring cross-browser compatibility.
- **Code Reviews:** Conducting daily code reviews for team members to ensure adherence to coding standards and best practices, providing constructive feedback, and mentoring junior developers.
- **Backend Development:** Engaging in backend development tasks using Node.js, including writing and optimizing server-side logic, performing database migrations, and setting up automation scripts for routine tasks. The database used is MongoDB.
- **AWS Integration:** Managing and utilizing AWS services such as S3 for storage solutions, EC2 for server hosting, and Amplify for front-end hosting. Regularly monitoring and optimizing cloud resources for cost and performance efficiency.
- **Collaboration:** Participating in daily stand-ups and sprint planning meetings, working closely with product managers to understand project requirements, and collaborating with graphic designers to implement UI/UX designs effectively.

Full Stack Developer

Fulcrum

March 2021 – December 2021

- **UI Development:** Developing and implementing highly responsive user interface components using React concepts. Daily tasks include converting design mockups into functional components, optimizing components for maximum performance, and debugging issues across different browsers.
- **Requirement Analysis:** Reviewing application requirements and interface designs, providing input on feasibility, and suggesting improvements. Participating in planning sessions to align on project goals and deliverables.
- **Team Collaboration:** Working closely with product teams and graphic designers to deliver high-quality features. Attending regular team meetings, collaborating on task assignments, and ensuring timely delivery of project milestones.

Senior Developer

CTO Global Services

2019 – 2021

- **Recruitment:** Assisting in the recruitment of new developers by conducting technical interviews, reviewing coding tests, and providing feedback on candidates' technical abilities and cultural fit.
- **Code Reviews:** Performing regular code reviews to ensure code quality, consistency, and adherence to best practices. Providing detailed feedback and suggesting improvements.
- **Backend Services:** Developing and deploying back-end services, including microservices and APIs. Daily tasks involve writing and testing API endpoints, integrating with third-party services, and maintaining database schemas. The database used here is mixed, we used Firebase, Firestore and MariaDB.

Web and Mobile Developer

CTO Global Services

2018 – 2019

- **Feature Development:** Creating new features for mobile applications using React Native. Daily tasks include developing new screens and functionalities, integrating APIs, and ensuring app performance and responsiveness.
- **Front-End Development:** Developing new pages and features for web applications using ReactJS based on specifications from Business Analysts and Graphic Artists. Tasks include implementing responsive designs, optimizing front-end performance, and fixing bugs.
- **Deployment:** Deploying mobile applications to Google Play and web-based applications using Google Cloud Platform. Responsibilities include setting up build pipelines, managing deployment configurations, and monitoring app performance post-deployment.

EDUCATION

Full Stack Web Development Course

Zuitt Coding Bootcamp (formerly Tuitt) - Quezon City, NCR

2018

Top Performer of the Batch

Bachelor of Science in Mathematics

University of the Philippines Los Baños - Los Baños, Laguna

2010
